(A bond for life)

COATINGS

Leeson Watertite™ Roof Waterproofing System.

Leeson Watertite™ is a high performance seamless roofing system. Our cold applied, low odour system is easy to apply, both on roof details and large areas. It cures quickly to form a tough, UV stable waterproofing membrane. Based on high performance moisture triggered polyurethane technology, the system consists of a chopped strand reinforced base layer, sealed with a finish coat. Warranties up to 25 years are available.

BENEFITS

- Excellent waterproofing
- Seamless – no joints to leak
- UV resistant
- Fast curing
- Low odour
- No embrittlement with age
- Bonds to many existing roof structures
